ARTICLE 1 – Scope

Only these General Terms and Conditions apply to all car rental and hire agreements, including any additional arrangements entered into between the rental company and renter.

ARTICLE 2 – The offer

1. The rental company issues a written or verbal offer, according to the renter's preference.
2. The offer remains irrevocable for a period of 14 days, except in the event of insufficient availability.
3. The offer contains a complete and accurate description of the rental period, the rental sum and any additional cost components. It shall further state the extent of the policy excess, the policy excess buyout option and the deposit or other security deposits that are applicable.
4. The offer states the rental company's business hours and the company's contact telephone number.
5. The offer shall further state the method of payment and the manner in which the deposit must be provided.
6. If reasonably possible, the offer shall be accompanied by a copy of these General Terms and Conditions. If this is not possible, a copy of the General Terms and Conditions shall be handed over upon conclusion of the agreement. These General Terms and Conditions are also available via the official website: sixt.be

ARTICLE 3 – The Agreement

1. The agreement is formed through acceptance of the proposal. A verbal agreement must be confirmed by the rental company in writing.
2. The rental agreement is entered into for the period and rate stated on the rental agreement or otherwise agreed. The rental agreement further states the start and end date of the rental period.

ARTICLE 4 – Price and price changes

1. The rental price and any additional cost components, such as price per kilometre, are agreed in advance as is the possible option of interim price changes. The rental company ensures that the rental price is clearly stated on the rental agreement.
2. The lessee agrees that, in principal, the lessor's invoices will be sent electronically to the specified invoice receiver.
 The lessee agrees to the way of proceeding whereby he will not receive paper based invoices and where the lessor will send an electronic invoice, according to legal provisions, to the e-mail address provided.
 The lessee can object the consignment of electronic invoices at any time.
 In this case the lessor will provide the lessee with paper based invoicing.
 The lessee will bear the additional costs for the reception and postage of the paper based invoice in that case.
 The lessee is responsible for being able to have access to the electronic invoices or, if agreed accordingly, to collect them electronically.
 The lessee is accountable for malfunctions of the receiving-device or any other circumstances that prevent the access to the invoices.
 An invoice is received as soon as it entered the lessee's control-domain.
 Should the lessor only send a notification and the lessee is able to retrieve the invoice by himself, or should the lessor make the invoice available for retrieval by the lessee, the invoice is considered as received when it is retrieved by the lessee.
 The lessee is accountable for retrieving the provided invoices in a reasonable period of time.
 If an invoice is not received or cannot be received, the lessee shall immediately notify the lessor.

In this case the lessor will re-send a copy of the invoice and designate it as a copy. If the malfunction in the electronic transfer cannot be resolved promptly, the lessor may send paper invoices until the malfunction has been corrected.

The lessee bears the costs of the consignment of paper invoices.

If the lessor provides the lessee with login data, user name or password, these data have to be secured from unauthorised access and kept strictly confidential.

In case the lessee gains knowledge that unauthorised persons obtained access to this information, he shall notify the lessor of it immediately.

3. The renter shall be kept properly informed of any additional costs, particularly so in the event the vehicle is returned in a place and at a time other than agreed.
4. The rental price includes value added tax, as well as any other taxes or charges payable on account of entering into the rental agreement. This applies to environmental levies in particular.
5. The settlement period ranges between 24 hours and 30 days. In the event of a change in price within 3 months of conclusion of the agreement, the agreed price shall remain unaffected, unless it involves a change due to an adjustment in the VAT rate or any other rental tax.
The consumer is entitled to terminate the agreement if the price is increased after 3 months of the agreement having been concluded, yet before commencement of the rental period, for reasons other than those ensuing from adjustments in the VAT rate or other taxes, unless the agreement stipulates that the rental period shall commence later than 3 months of the agreement having been concluded.
In the event of a change in price after conclusion of the agreement, the agreed price shall remain unaffected, provided the agreement exceeds a term of 30 days. The change shall be effective as from the next settlement period.
6. The number of kilometres driven is calculated on the basis of the odometer readings, unless the odometer has become faulty. If the odometer has become faulty, the number of kilometres driven shall be calculated according to best effort. The provisions in respect of the odometer equally apply to the PTO, cooling engine and operational hours meter.
7. During the rental period, costs in relation to the use of the vehicle, such as toll, Eurovignette, fuel, cleaning and parking are at the expense of the renter.
8. Without prejudice to his obligation to pay compensation, subject to valid grounds, the renter cannot be charged costs that have not been agreed.

ARTICLE 5 – The rental period and exceeding the rental period

1. The renter is obliged to return the vehicle, including all appurtenances, to the company and address referred to in the rental agreement or to an alternative address as agreed, on or before the day and time at which the rental period ends. The rental company is obliged to take possession of the vehicle during its business hours.
2. Returning the vehicle outside business hours and/or making it available at an alternative location is subject to approval of the rental company.
3. If the vehicle is returned earlier than agreed, the provisions of this agreement shall remain unaffected, particularly those in relation to the agreed rental price for the rental period.
4. If the vehicle has not been returned after the possibly extended rental period has ended and in accordance with the agreed method, the rental company is entitled to repossess the vehicle with immediate effect. The obligations of the renter by virtue of this agreement remain in force until the vehicle is in the possession of the rental company again. Any additional costs shall be at the expense of the renter.
5. If the renter has failed to return the vehicle in time, the rental company shall be entitled to charge the renter the daily rental sum for every 24 hours by which the rental period is exceeded. A tolerance of 59 minutes shall be applied counting from the original

return time and date, before the daily rental sum is charged. If it is physically impossible to return the vehicle due to reasons attributable to Sixt Belgium, no rental surcharge shall be charged.

6. For long-term rentals (rentals with an agreed rental period of more than 27 days) the renter is required to return the vehicle when the mileage specified in the rental agreement is reached, but no later than the last rental day specified in the rental agreement. In the event that the renter exceeds the mileage specified in the rental agreement by more than 100 km and/or returns the vehicle after the date specified in the rental agreement, the renter shall be required to pay a contract penalty of € 500, unless the renter proves that the rental company has suffered no or little damage. When the mileage specified in the rental agreement is reached, on returning the vehicle the renter shall receive an equivalent replacement vehicle for the remaining rental period.

- In the event of cancellation on the first day of the rental period or later, the cancellation fee is subject to the maximum of the rental price or the balance thereof.
- In the event of a prepaid booking, the cancellation fee is subject to the maximum of the rental price or the balance thereof.
- In the event of a prepaid booking cancelled on the first day of the rental period or later, the No Show fee is subject to the maximum of the rental price.
- In the event of a flexi-rate booking cancelled on the first day of the rental period or later, the No Show fee is subject to the maximum of the rental price.
- In the event of a flexi-rate booking cancelled at least 24 hours in advance of the agreed rental period, no cancellation fee is charged.
- Cancellations submitted outside office hours are deemed to have been received the next calendar day.
- Cancellations outside office hours can only be made in writing and/or by e-mail.

2. Sixt Belgium shall furthermore be entitled to charge the renter all judicial and extrajudicial costs incurred after expiry of the payment term.

5. If the renter or natural entity requests or is granted protection against its creditors within the framework of the Debt Management Scheme Act, loses the right to dispose of his assets in any other way or if the goods of said renter are seized, the rental agreement shall be terminated with immediate effect, without any prejudice to the right of Sixt Belgium to claim compensation from the renter or the natural or legal entity that looks after the goods.

ARTICLE 10 – Obligations of the rental company

1. The rental company delivers the vehicle in accordance with the agreed category and corresponding specifications, fitted with the equipment obligatory in Belgium, clean, properly maintained, with a full fuel tank (unless otherwise agreed in advance) and, insofar as it is or should be known to the rental company, in a technically proper state of repair.
2. If it is not possible to deliver a vehicle from the agreed category, the vehicle category shall be upgraded upon request of the renter, without additional charges. A request for a vehicle upgrade cannot be granted if the agreed vehicle is one from the highest category.
3. The rental company, in conjunction with the renter, draws up a report listing any existing damage to the vehicle, as well as the odometer and tank readings.
4. The renter can verify any visible damage to the vehicle by means of a checklist and have this visible damage registered before taking possession of the keys to the vehicle. As soon as this inspection has been completed, the renter becomes fully and solely responsible for the custody and maintenance of the vehicle up to the moment it is returned.
5. The rental company hands over the required documentation, the on-board documents in particular, to the renter prior to commencement of the rental period.

7. The rental company must clearly indicate the type of fuel that must be used for the vehicle, plus any required additions, which indication must preferably be close to the fuel cap. The rental company assumes that any international symbols and abbreviations are known to the renter. In the event of doubt, the renter must contact the rental company prior to refuelling.
8. The Dutch instruction manual states the required oil level and tyre pressure values which must be maintained.
9. The rental company must arrange for professional roadside assistance and breakdown cover, both in Belgium and abroad. Roadside assistance and breakdown cover only apply if using the vehicle in the relevant country referred to in article 8, paragraph 8, is allowed.
10. Professional assistance in any case includes a replacement vehicle being offered by the rental company, which vehicle must be as close to the vehicle category as the original vehicle, if that vehicle must be taken in for repairs due to a defect. If the breakdown is due to driver error, the costs of roadside assistance shall be at the expense of the renter. Where applicable, the rental company may recover any costs from the renter.
11. The rental company inspects the vehicle for any damage immediately upon return of the vehicle by the renter. This applies to both returning the vehicle to the original

branch and to the vehicle being returned to another branch. This inspection shall, insofar as possible, take place in the presence of the renter, so that he may contest any claim.

ARTICLE 11 – Liability of the renter in the event of damage

General provisions:

By default, all vehicles are insured in accordance with the Civil Liability Insurance (Motor Vehicles) Act. In order to reduce the exempt amount, the renter may use the services of the rental company.

1. In the event of damage incurred by the rental company due to actions of the renter, the renter shall be liable per loss incident, up to the exempt amount stated on the rental agreement. In all other cases - which are not the liability of the renter - the exempt amount agreed between the parties applies, in proportion to the risk covered by the applicable insurance policy.
2. If, however, the damage has been caused by acts or omissions in breach of article 8, the renter shall be fully liable for the damage incurred by the rental company, unless he demonstrates that these acts or omissions cannot be attributed to him or if full reimbursement would be unacceptable in accordance with the standards of reasonableness and fairness. The rental company may charge the renter for the total financial loss it suffers.
3. If, following approval from the rental company, the vehicle is returned outside business hours and/or is made available for collection by the rental company at a subsequently agreed location other than the business site of the rental company, the renter, in accordance with paragraph 1 or 2, remains liable for the damage incurred by the rental company caused up until the time the rental company has physically inspected the vehicle or until such inspection has been carried out. In the situation referred to above, the rental company shall inspect the vehicle at the earliest possible opportunity and immediately inform the renter if any damage has been detected.
4. In the event of damage incurred by the rental company representing a financial loss due to injury caused to persons or goods with or by the vehicle with regard to which the rental company, the party in whose name the vehicle is registered or liability insurer of the vehicle is liable towards third parties, the provisions in paragraph 2 of this article shall apply only if no cover is in place in accordance with the terms and conditions of the motor liability insurance contract (WAM).
5. In the event of damage to the vehicle abroad, the vehicle repatriation costs shall be at the expense of the rental company, unless paragraph 2 of this article applies.
6. The renter is liable for the acts and omissions of the driver, the passengers and other users of the vehicle, even when the vehicle was taken without the consent of the renter.

ARTICLE 12 – Vehicle defects and liability of the rental company

1. At the request of the renter, the rental company is obliged to repair faults, unless this is impossible or requires expenses which the rental company cannot reasonably be expected to pay in the given circumstances. This obligation does not apply if the renter is liable towards the rental company for causing the defect and/or the consequences thereof.
2. The rental company cannot be held liable for damage to goods transported, established upon expiry of rental period.

ARTICLE 13 – Government measures and information to the authorities

1. In all situations, Sixt Belgium shall pay the relevant traffic fine and recover the amount paid from the responsible driver. Notices of objection are accepted subject to the renter being able to demonstrate in writing that he was not bound by a rental agreement that corresponds to the relevant offence. Notices of objection must be made in writing and submitted to: klantenservice@sixt.com or: Sixt BELGIUM, attn Customer Services,

Postbus 8, 1930 Zaventem. The renter is obliged to pay an administrative fee of EUR 18.50 (exclusive of VAT) per traffic offence.

2. In the event of the relevant authorities requesting the name of the driver of the rented vehicle in relation to all offences committed by the renter, the name of the renter shall be given.
3. The renter agrees to these provisions and hereby grants approval for using the payment details provided in the rental agreement to charge on traffic fines and/or sanctions/penalties imposed by the government.

ARTICLE 14 – Seizure of the vehicle

1. In the event of seizure for administrative reasons or under civil or criminal law, the renter remains obliged to fulfil the obligations of the rental agreement, including payment of the rental price, until the moment the vehicle is in the possession of the rental company again, free from attachments, unless the seizure is in connection with circumstances that are within the control of the rental company.
2. The renter is obliged to indemnify the rental company against any costs arising from the seizure, unless otherwise agreed, in writing.

ARTICLE 15 – Termination of the rental agreement

1. The rental company is entitled to terminate the rental agreement without a notice of default or judicial intervention and to repossess the vehicle, without prejudice to its right to full compensation of costs, damage and interest, if:
 - The renter fails to fulfil one or more of his obligations during the rental period, or fails to do so in time or in full, unless the breach is not serious enough to justify termination;
 - The renter
 - a. dies,
 - b. is placed under guardianship,
 - c. is declared bankrupt or insolvent,
 - d. requests or is granted protection against his creditors, either within the framework of the Business Continuity Act or as part of a debt management scheme,
 - e. is wound up
 - The rental company receives information with regard to circumstances of such nature that if the rental company had been aware of these, it would not have entered into the rental agreement.
2. At the end of the rental period, the renter shall render the rental company all assistance aimed at repossessing the vehicle.
3. If the renter dies prior to commencement of the rental period, the rental agreement is terminated without a notice of default or judicial intervention being required.
4. The rental company cannot be held liable for damage as a result of termination on the grounds of this article.

ARTICLE 16 – Remote termination

If the renter opts to terminate remotely, the renter is obliged to terminate the rental agreement by telephone or in writing. The renter remains liable until the rental company has taken possession of the vehicle again. The renter must take measures to protect the vehicle against the risk of damage or loss. The renter is furthermore responsible for any parking fees up to the moment of transfer.

ARTICLE 17 – Extension of the rental period

The renter must notify the rental company of the need to extend the rental period, timely in advance. The rental company gives instructions the renter must comply with. In the event of doubt in respect of the creditworthiness of the payment details stated in the rental contract, extension of the rental period is not possible.

ARTICLE 18 – Theft

By default, the renter is not insured against theft. Such insurance can be taken out by way of a supplement to the rental agreement. Theft insurance is subject to an exempt amount. By default, all vehicles of the rental company are insured in accordance with the Civil Liability Insurance (Motor Vehicles) Act, yet this does not include theft insurance.

In the event of theft, the renter must immediately contact the police and the rental company. Negligence on the part of the renter in this respect renders the insurance cover invalid.

ARTICLE 19 – Processing of personal details of the renter and of the driver

The personal data of the renter included in the rental agreement with the rental company are processed by the rental company in accordance with the Privacy Protection Act of 8 December 1992.

By processing this, the rental company can implement article 13 of these conditions, execute the agreement, provide the renter or driver with the best possible services, current product information and personalised offers. The renter is at all times entitled to amend this data and/or have this rectified in accordance with the provisions of the Privacy Protection Act of 8 December 1992.

ARTICLE 20 – Applicable law and competent courts

The rental agreement is governed by the laws of Belgium, unless mandatory law prescribes the laws of another country. Every dispute with regard to the rental agreement falls under the sole jurisdiction of the court district of Brussels.

ARTICLE 21 – General provision

The renter ensures that the driver, including the passengers and other users of the vehicle, comply with the obligations and prohibitory provisions stipulated by this agreement.
